Declutter App for jibo

Project Proposal - Conversation Interfaces
Sanchit Gupta, Hongru Hou, Nanjiaxu Jiang

"I can't throw anything away. I'm just sentimentally... I'm attached to everything." She sighs. "It could be a piece of paper a friend has written on and I won't get rid of it."

Why jibo?

- Camera capability enables it to analyse stuff inside the room.
- Build to communicate with you.
- Make lifestyle behavior change suggestions via a friendly voice.

Functionality

- Educate people and help people overcome the attachment to things.
- Scan your surroundings.
- Make suggestions on selling stuff that haven't been used or moved for a long time.
- Provide estimate value ($) based on the online listings.

User flow

1. Onboarding
2. Triggers
3. Discuss the emotional connection and introduce minimalist lifestyle
4. Showing the value of things that people haven't used for a long time
5. Send mail requests to carriers when things are ready to be mailed
